

ENVIRONMENTAL POLICY STATEMENT

Mission Statement

The company will protect, conserve and maintain the environment in all of its operations and decision making. In pursuit of our mission statement, we shall incorporate environmental management principles in its corporate strategy, planning and implementation as below:

- Comply with all applicable environmental laws and regulations to maintain and enhance the environmental values and ecological functions of the forests.
- Uphold binding international conventions and agreements on biodiversity, CITES, IUCN, climate change and UN Sustainable Development Goals, to which Malaysia is a party.
- Collaborate with and support local and international institutions and experts to carry out research, development and monitoring projects for conservation and protection of biodiversity and ecosystems.
- Engage with all relevant authorities, agencies, local communities and other relevant stakeholders through dialogues and consultations on any environment project.
- Promote active program on environment education amongst employees to enhance environmental awareness.
- Periodic review of operational standards and plans to bring continuous improvements to our environmental practices.
